

“

"It really brought M to life. He answered all your questions. He sang and clapped along. At 10 minutes into it he was cracking jokes with you and thanking you."

SoundUp Arts CIC

Creative Casts

Our CreativeCast Programme brings interactive musical sessions and creative activities to people living with dementia digitally.

These are easy and flexible resources that will allow anyone to set up an interactive music and creative session for those they care for.

About the Subscriptions

Each week a new CreativeCast will be available through a private online link and will be available to watch an unlimited number of times over 7 days. Included weekly, along-side the CreativeCast video link, will be downloadable CreativePacks with 6-8 creative resources that can be printed. These CreativePack resources will not expire.

CreativeCast Footage:

“She becomes like the person we used know after she has a session with you.”
